RANJINI ARAVIND

I'm a UX designer with experience in prototyping, user research, and analysis. I'm looking for a role in which I can communicate with users and stakeholders, brainstorm, and create prototypes to test ideas.

2019
6 months

UX Research Intern

Inria, Paris

- Conducted interviews to understand how fitness tracker wearers perceive microvisualizations.
- Designing a perceptual experiment to compare various sleep visualizations on fitness trackers.
